**WRITES OF
S ACCIDENT**
**WHITE INJURED
N DUTY**

this letter. William's accident was incurred in line of duty. That is all the information that I can give you at present.

I would, however, like to give you a sketch of your son's background over here and the work he has done, as well as the high estimation in which he is held by all of us. I have known him personally since February, 1944 when I was assigned to the same organization with him—the 314th station complement squadron.

Later, in December, 1944, I was transferred to the 410th bomb group (L) but remained on the same station with him. Just recently William was also transferred to the 410th—it looks as though we might have to pull some strings to get him back with us as soon as he is well again. I hope that will not be long.

In England, when I first knew William we were stationed at Earle's Colne, Essex—later we moved to Gosfield, Essex (near Braintree and Colchester and about 40 miles from London). When we came to France, we were stationed at Coulommiers (about 35 miles from Paris); later at Juvincourt (near Reims—the scene of the surrender of the German high command) and then here at Beauvois sur Oise, about 21 miles from Paris, again.

During all this time, William has been almost solely responsible for the installation of communication and wire facilities at each new station we moved to. That has been a tremendous job and he has worked sometimes night as well as day to get it done. In doing so, he has earned just admiration and respect of his fellow enlisted men and his officers. He is known and well-liked all over the base. He has the reputation of a hard worker and a square shooter. I have never heard him say an unkind word about anyone and he has helped whomever he could, whenever he could. He is entirely too good a man to lose from our outfit.

It is rumored that our entire organization may return to the states shortly—if this be true, I shall certainly try to look William up and see how he is making out. As soon as he is returned to duty we shall try to get him back in the 410th.

Please believe me when I say again that all the men join me in sincere regrets for this untimely accident and genuine hopes for William's quick recovery and return to us. Both he and his work will be sorely missed here. He has done a good job—an excellent job—now he deserves a good long rest. But if the war in the Pacific lasts we shall certainly want him back if he wants to come back. We value his worth as a man and as a hard worker.

Please let me know if you receive this letter and tell William when you see him (I'm sure that will be soon) to let me hear how he is getting along, from time to time. I'll look him up when we get back to the states.

Sincerely, James J. Germany, Master Sergeant, 410th Bomb Group.

PFC. OTOH RUFENER WRITES FROM GERMANY MAY 19

Below is a letter received by Mrs. May L. Rufener of near Anabel from her son, Pfc. Otoh Rufener, whose picture appears in this issue.

Pfc. Rufener's letter was written from somewhere in Germany and it is as follows:

Dear Folks:

How are you? I am pretty fair. Had tooth yanked the first of the week. It had been bothering me for quite some time.

We just got the information that our letters will not be censored anymore, so I will try to tell you a few places I have been and just what we are doing now. We were in a gun position on the Rhine river for about three weeks, our gun was about 15 feet from the water, we were guarding a pontoon bridge. We had quite a bit of action there and for the last month or so we have been taking care of liberated prisoners of all nations, hauling chow for them and keeping them under control until arrangements can be made to get them home. They can't be turned loose to roam the country. They all have a great respect for the American soldiers.

We took care of a camp of 6,000 Polish officers for two weeks. We pro
