

We have an active womens organization, Christian womens fellowship. We have sunday school regularly.

Through the years there have been many fine young people who have left our community with the early training they received in our little country church. Then too, it is good to see that some of the old families are still represented and we feel that the church can still serve the purpose for which it was organized.

There remains only one of the 68 charter members, she is Iva (Daniel) Maddox. The day the church was dedicated Mrs Maddox has told me, she remembered Annie Bryan, sang a solo. Later she became Mrs Wm. Williamson, the mother of Catherine Hollenbeck. The Hollenbeck family are active there yet. On the day of the dedication Rolla E. Daniel was married to Kate Middleton, then they came to church where Rolla served as an usher. He and she served their church well, . They were my mother and father.

Just back of the church building is a small cemetery where some of the founders of this church lie at rest. It is good to remember that the good they did for their church and community live on in the lives of the younger generation.

This brings us from the year 1884 to the year 1970.
